ROLL

TYPE	Glazed Porcelain
APPLICATION	Indoors/Outdoors Wall/Floor
DESCRIPTION	Roll gives you the freedom to play with the space in order to customize and create a multiple variety of compositions. Its singularity lies in using a single hexagonal piece to get a different range of patterns by rotating and placing it in different positions.
PRODUCT INSTALLATION	It is recommended for the product to be installed by a qualified professional. We do not recommend the use of adhesives based on epoxy resin. Read carefully instructions set by the manufacturer of the adhesive used.
PRODUCT CARE	For initial and daily cleaning the use of a damp cloth and mild soap is recommended. Avoid using abrasive and acidic cleaning products.
* NOTE	To achieve the visual aspect of the product and given the artisanal procedure for production and raw materials used, pieces can represent variation in size, texture, design and shade. This is done deliberately to give the product a unique personality and unrepeatable characteristics.

TECHNICAL SPECIFICATIONS		ISO	TEST METHOD	PASS/FAIL
